At school

Lucas goes to school every day of the week. He has many subjects to go to each school day: English, art, science, mathematics, gym, and history. His mother packs a big backpack full of books and lunch for Lucas.

His first class is English, and he likes that teacher very much. His English teacher says that he is a good pupil, which Lucas knows means that she thinks he is a good student.

His next class is art. He draws on paper with crayons and pencils and sometimes uses a ruler. Lucas likes art. It is his favorite class.

His third class is science. This class is very hard for Lucas to figure out, but he gets to work with his classmates a lot, which he likes to do. His friend, Kyle, works with Lucas in science class, and they have fun.

Then Lucas gets his break for lunch. He sits with Kyle while he eats. The principal, or the headmaster as some call him, likes to walk around and talk to students during lunch to check that they are all behaving. The next class is mathematics, which most of the students just call math. Kyle has trouble getting a good grade in mathematics, but the teacher is very nice and helpful.

His fourth class is gym. It is just exercising. History is his last class of the day. Lucas has a hard time staying awake. Many lessons are boring, and he is very tired after doing gym.

Chicago

Keith recently came back from a trip to Chicago, Illinois. This midwestern metropolis is found along the shore of Lake Michigan. During his visit, Keith spent a lot of time exploring the city to visit important landmarks and monuments.

Keith loves baseball, and he made sure to take a visit to Wrigley Field. Not only did he take a tour of this spectacular stadium, but he also got to watch a Chicago Cubs game. In the stadium, Keith and the other fans cheered for the Cubs. Keith was happy that the Cubs won with a score of 5-4. Chicago has many historic places to visit. Keith found the Chicago Water Tower impressive as it is one of the few remaining landmarks to have survived the Great Chicago Fire of 1871. Keith also took a walk through Jackson Park, a great outdoor space that hosted the World's Fair of 1892. The park is great for a leisurely stroll, and it still features some of the original architecture and replicas of monuments that were featured in the World's Fair.

During the last part of his visit, Keith managed to climb the stairs inside of the Willis Tower, a 110-story skyscraper. Despite the challenge of climbing the many flights of stairs, Keith felt that reaching the top was worth the effort. From the rooftop, Keith received a gorgeous view of the city's skyline with Lake Michigan in the background.

The pet store

George is at the pet store, looking at what kind of pet he might want to get for his birthday. George asked if he could have a horse, but his parents said no because horses are too big.

First, he sees dogs and cats. Baby dogs are called puppies. Baby cats are called kittens. George likes them because they are easy to take care of and can play a lot, but they will get bigger.

George wants a small pet.

Then George sees animals that have to live in a cage. He sees rabbits, guinea pigs, and mice. He likes these animals because they are small. Birds live in cages too. George sees a parrot and a canary. He likes them all, but he doesn't want to clean the cage.

George sees the animals in tanks. The tanks full of water have fish and turtles in them. He thinks about a goldfish but decides he likes the turtles more. There are also tanks with rocks and sand that have snakes, spiders, and scorpions, but George is afraid of them. George likes the turtles best, but they won't fit in the little fishbowls. Turtles need bigger tanks, so they can swim sometimes and hide sometimes.

George decides he wants to get a turtle for his birthday. He buys a book on how to take care of a turtle and a list of what types of turtles the store has.

London

London is a famous and historic city. It is the capital of England in the United Kingdom. The city is quite popular for international tourism because London is home to one of the oldest-standing monarchies in the western hemisphere. Rita and Joanne recently traveled to London. They were very excited for their trip because this was their first journey overseas from the United States. Among the popular sights that Rita and Joanne visited are Big Ben, Buckingham Palace, and the London Eye. Big Ben is one of London's most famous monuments. It is a large clock tower located at the northern end of Westminster Palace. The clock tower is 96 meters tall. Unfortunately, Rita and Joanne were only able to view the tower from the outside. The women learned that the tower's interior is undergoing renovations until 2021. Fortunately, the London Eye, the city's famous Ferris wheel, was open to the public. The London Eye is situated along the southern shores of the Thames River. This attraction stands 135 meters high. It is one of London's most well-known spots for gaining aerial views of the city. Each capsule of the Ferris wheel can hold up to 25 passengers. When their capsule stopped at the top of the Ferris wheel, the women took spectacular panoramic photographs of the beautiful cityscape below.
